Notice of marriages, births and deaths, and cards of thanks, each \$1.00

All classified and transient advertising must be paid in advance.

THURSDAY, SEPTEMBER 17, 1926

GRAIN RATES AND THE EAST.

From the East come shrewds of protests against the Railway Board order granting increased grain rates Westward.

Ottawa, Halifax, Winnipeg and nearly every Eastern city has something to say about the "detriment" of chairman McKeown and Commissioner Oliver granting grain rates when by order-in-council the whole question of freight rates is still to be reviewed.

The justice of this order is so obvious as to make defence of it almost unnecessary.

Surely the East cannot fail to realize that, in laying down the principle that grain should move to tide-water at preferred rates, Parliament has definitely labelled grain as an object of special consideration.

Even the order-in-council by which the survey is commanded recognizes this principle when it lays down a fixed C.W. West rate on grain east-bound.

This is a time for protests and re-considerations. The one order simply means that Western Canada, has at last, been taken into the economic confederation, that the people of the West, are, at last, granted full Canadian citizenship.

And that new confederation and that new citizenship bring a new day for the West but for the whole Dominion of Canada.

If a human body can get healthy with one atrophic limb, then Eastern Canadians may have some cause to regret the new influx that has been poured into the West.

But health for this end of Canada means greater health for all Canada. The thing for the East to do is to cut short the protests and re-approaches and adjust itself to the new situation which will mean greater opportunities and greater prosperity for every citizen of the Dominion.

NEWSPAPERS AND GOVERNMENT.

Premier Greenfield, of Alberta, says that Canadian newspapers sacrifice dignity for sensationalism and hinder rather than facilitate government by their criticism.

Premier Greenfield is unjust.

The difference between newspapers of 50 years ago and newspapers of to-day is that old-time editors were interested in public welfare, while modern editors are interested in good government.

In 1876, political parties could always count on their newspapers, through thick and thin. To-day, except in isolated cases, political parties must earn newspaper support.

The newspaper has become the mouthpiece of the people rather than the mouthpiece of the party.

That transformation may be inconvenient, sometimes, for politicians, but it has added 100 per cent. to the voting intelligence of the people.

Within the science of politics is a natural urge for progressive evolution. That urge must come from without, from some form of organized and crystallized public opinion. If the fluctuations of the press sometimes bite too sturdily, politicians should remember that birth, even of new ideas, is probably more painful as Bacon said, even than death.

HARNESSING THE TIDES.

Dexter P. Cooper, one of the famous engineer brothers who tapped the Mississippi at Keokuk and Niagara Falls for their power, plans to harness the fabulous waters of the Bay of Fundy by an undertaking that will cost \$75,000,000 and employ 5000 workmen for five years.

The Cooper plan calls for great sea walls with water gates to shut the 100 square miles of Passama-

Maintaining Ford Leadership —Highest Quality at Lowest Cost

Introducing many improvements in the world's most popular line of motor cars.

The Fordor Sedan

Color—Grey with black enamel spinning gear. Complete body. Nickel-plated radiator shell and headlamp. Leather-trimmed interior, closed at both ends. Motorized mechanical steering, shock absorbers, front wheel drive, and disc brakes.

The Tudor Sedan

Color—Dark Blue with black enamel spinning gear. All-steel body. Nickel-plated radiator shell and headlamp. Leather-trimmed interior, closed at both ends. Motorized mechanical steering, shock absorbers, front wheel drive, and disc brakes.

The Coupe

Color—Dark Blue with black enamel spinning gear. All-steel body. Nickel-plated radiator shell and headlamp. Leather-trimmed interior, closed at both ends. Motorized mechanical steering, shock absorbers, front wheel drive, and disc brakes.

Ti-Rumabout

Color—Black. All-steel body. Double ventilating windshield. Wind-up door with complete inner panel. Includes spare tire, motor system operating with both hand and foot pedals and standard front wheel drive.

The Touring

quddy Bay into an upper pool. Other walls would insure Coboskoo the lower bay, 50 square miles more. Across the inlet, between the two pools thus formed, from Eastport to the Maine mainland, a dam and power house would be built.

On a rising tide, the gates to the upper pool would be opened to admit water. At flood the gates would close. No water from the sea would ever enter the lower pool, its gates being opened only when its contents were above sea level.

Thus, there would be maintained a continuous fall of water over the lower pool, a fall which Engineer Cooper estimates will produce between 500,000 to 700,000 horsepower, convertible into some 3,250,000,000 kilowatt-hours a year.

Shoals, the greatest power plant, turns out 700,000,000 kilowatt-hours a year.

Difficulties in the way are sea walls a mile in length, 20 feet high, and a dam of 3,000 feet. Engineer Cooper says he will overcome them.

Science, he says, is making the greatest assault on the locked doors of Nature since Milton's Satan tried to batter them down, with evil, thousands of years ago.

OLD LONDON PUTS ON AIRS

Old London, says a cable despatch, has decided to brighten itself up. Building restrictions will go into force for building banks to build on corners. Every encouragement will be given to the use of bright colors in building decorations.

After wallowing through the blood and slime of 20 feverish centuries, London is at last to become "modern."

Streets that shook to the tread of Roman legions, highways that witnessed clashes between Saxons and Normans, lanes into which plague-stricken victims crawled to die, stories that have seen unthinkingly the poignant of 2000 years of colorful history, all will be herded under the discipline of a modern zoning act.

It is a complete surrender of the old to the new. Sentiment and tradition have at last put their necks under the heel of modern efficiency.

If London finds it worth while to violate the sentiment and tradition

of centuries to plan her city upon modern principles, how much more will Vancouver, unburden by any such handicaps, find it worth while to plan her city upon proven principles of common sense?

THE STORAGE AND TRANSPORTATION OF SEED POTATOES

Improper storage of potatoes results in the loss of thousands of bushels annually. The careless handling of potatoes in transportation means financial loss and tends to have a serious effect upon the market.

Several factors influence the successful storage of potatoes. These are: humidity, depth of pile, and sound stock free from dirt.

Potatoes should be stored in a cool temperature as possible without freezing. A good average temperature ranges from 36 degrees F.

A grower's responsibility does not end when his potatoes have been bagged. The use of clean bags is a factor which at times is not taken into consideration. Bags or sacks ways advisable to use are those that they will stand back and thus eliminate the danger of falling between the car doors where bulkheads are not used.

Directly or indirectly the grower is responsible for the arrival of his stock in a sound condition. Frost is by far the greatest obstacle to overcome. Care must be taken that the stock is not chilled during the trip from the farm to the shipping point.

The liberal use of straw and blankets in the cold weather is essential. Similarly in the railway cars straw and paper will reduce the possibility of freezing. Careful handling at sidings where no railway platforms are provided will prevent bruising. It is not unusual for several potatoes in a bag to be badly damaged by

rough treatment. Careful piling in the car lessens the possibility of bruising during transit. It is also advisable to arrange the tiers so that they will stand back and thus eliminate the danger of falling between the car doors where bulkheads are not used.

PROTECTION SANS OBSTRUCTION.

An old farmer attended a big picnic and stayed over to watch the dancing at night. He had been out in the world much, and he was deeply impressed with the girls' clothes at that dance.

"Some of the ladies' clothes I see here," he said, "put me in mind of a barbed fence."

Somebody asked him why "Walt" said he, "it's this way—they expect to protect the property without obstructing the view."

BUY AT HOME

Purchases representing thousands of dollars are lost to us, to our trade, to our clerks and employees, to our laborers and artisans, to all the people of Macleod who exist on the products of their work. This money, if spent at home, would help to recreate Macleod socially, give a wider field of activities in business, would be helpful to every resident of this town.

If we purchased regularly from local merchants, this money would circulate in Macleod in a welcome manner. Our merchants merit our patronage; it is to our interest, and the duty of all of us to encourage the local merchant. He is one of us, he lives among us, he has the right to be encouraged by us, he is anxious to have our custom, and to give us satisfaction. We should under all circumstances give him preference, price for price, quality for quality. And nearly always the price that our local merchant asks is, if we compare the quality, just as cheap as that of the outside merchant.

Never purchase merchandise by catalogues from foreign houses before assuring yourself that you cannot procure the same articles, of the same quality, and frequently of better quality at the same price from your local merchant.

CAPITAL GOSSIP AND PROV. NEWS

Big Sugar Beet Crop
Harvesting of Alberta's first sugar beet crop on the irrigated districts in the south for the new sugar beet factory at Raymond is commencing. The crop is a large one, and is expected to average 15 to 20 tons to the acre throughout the district, which will give a total harvest of more than 100,000 tons. The factory at Raymond will open for operations shortly. Some farmers expect to get as high as 25 tons of beets to the acre.

Additions to Wheat Pool
The Alberta wheat pool is adding an average of 800,000 bushels each day to the total volume involved in the pool for the 1925 crop according to an announcement from pool headquarters. In one day in the past week 9000 cars were added.

Big Oil Company to Operate in Alberta
The famous Dutch Shell Oil company, with activities all over the world, and in which the British government is a heavy shareholder, has decided to enter the Canadian field. This word comes from Ottawa in the latest copy of the official Canadian Gazette, announcing the incorporation of a million dollar Canadian Shell Oil Development company. It is the forecast of big developments in the oil fields of Western Canada where the Shell people have had an immense geological and geophysical survey, investigating the geological possibilities.

Should Save Seed Corn
Farmers who are growing Hovos Alberta Flint Corn in quantity will, for the sake of their own seed, and for the sake of the province, should see to it that they save a small quantity of seed for their own use. The College of Agriculture cannot undertake to furnish the seed for everyone.

T. R. Survey
That children born in Alberta show less tendency to tuberculosis than those born in other countries is disclosed in the report of the survey of school children undertaken in 1924 by the Alberta tuberculosis association, which report has recently been published. In his report the survey of 1051 school children in various parts of the province were examined. Of this number 827 were children born in Alberta and only 11 per cent. of these showed reaction to the tuberculin test. Reactors in other parts of the province showed percentages ranging from 29 to 36. Out of the total of 1051, there were 144 reactors, or only 13.67 per cent.

Cutting and Threshing in One Op.
E. G. Cook, M.L.A., Pincher Creek, cutting and threshing his wheat crop with one operation. He used a combine with eight horses, cut, and threshed 12 feet of grain in the field to 40 acres daily, employing two men to drive horses, and another to look after the threshing machine which is operated by a 25 h. p. motor. Only enough straw is cut to get all the heads. This is a saving of 12 feet of grain, and the straw is dropped into the threshing machine which is operated by a 25 h. p. motor. Only enough straw is cut to get all the heads. This is a saving of 12 feet of grain, and the straw is dropped into the threshing machine which is operated by a 25 h. p. motor.

Harlan Erickson, clever Canadian, as "Koko," in "The Mikado," at the Empire Theatre, on Wednesday, September 23rd.

SMP ENAMELED SINKS
A Real Sink for \$13.00
Up to date, the sink has been considered a luxury. Now, at low cost, you can have a sink that is as good as any. Post Experts to Meet Here
Farm post experts will meet here in 1926 conference at Lethbridge, Alberta, according to the decision at the meeting of the international crop post committee recently. The prairie provinces, and the states of North Dakota, Minnesota, Wisconsin and Minnesota will be represented by L. S. Beaumont, dominion government entomologist at the experimental farm at Lethbridge, is secretary of the committee.

To Demonstrate Weed Cleaner
The provincial department of agriculture, which is undertaking to manufacture for marketing purposes the "Weed Cleaner" disinfectant attachment for reapers, will make a demonstration of the improved machine at Calgary, Lethbridge and Carleton Place in the near future. The demonstration at Calgary will take place toward the end of next week in the vicinity of Rhineland. A further announcement concerning this will be made. The machine has recently been considerably improved and is considered modern in every respect.

There's nothing new under the sun, except definitions of heresy.

Course in Agriculture
Attention is called to the B.S. course in Agriculture at the University of Alberta. Young men who can afford the time and cost to acquire a foundation course in the University will find this new four year course worth investigating. The last two years being based somewhat on the elective system allows for quite a range of choice.

Therapeutic Storm Breaks Over City of Lethbridge
Lethbridge, Sept. 14.—Many Lethbridge people spent an hour of terror early Monday morning during one of the most furious electrical storms in the history of the south country. A total of 1.2 inches of rain fell in the city, 45 at the Experimental Farm and 38 at R. C. M. Nicol. The rain was accompanied by lightning. The sky was almost constantly illuminated during the storm, but the lightning was not so frequent. Additional moisture will further delay threshing. No damage from the lightning is reported.

BEST BULBS FOR FALL PLANTING

Flowers are, no doubt, enjoyed more in the spring than at any other period of the growing season. A long winter the first flowers are eagerly sought for. In the garden, a plant in the autumn one has not long to wait for flowers for snowdrops bloom as soon as the snow has gone. Then in rapid succession the crocuses, the hyacinths, the tulips, the daffodils, the narcissus, in great variety, and early, cottage and garden tulips. These give a succession of bloom from early in April, earlier, if the frost is not so deep, until well on in June.

While the bulbs are growing in the soil outside or in the pots in the house, the results will not be satisfactory. The bulbs are not so healthy as when they are obtained from the grower. The bulbs are not so healthy as when they are obtained from the grower. The bulbs are not so healthy as when they are obtained from the grower.

Some of the most satisfactory varieties for the garden are:
Holland - LaGrandes, Grand Lilas, King of the Blues, Gigantes, Rolfs de Belges, Tulips - Dabess de Paris, Gold Finch, Ketterhagen, Lady Holland, Czar, Cottage Maid.

Many Acres Registered
More than 32,000 acres are registered in Alberta this year, compared with something over 47,000 in 1924. The total receipts from car houses for this year have been \$21,000, compared with \$24,500 for the entire year of 1924.

Post Experts to Meet Here
Farm post experts will meet here in 1926 conference at Lethbridge, Alberta, according to the decision at the meeting of the international crop post committee recently. C.P.R. WILL FIGHT NEW GRAIN RATE

Ottawa, Sept. 11.—The Canadian Pacific Railway has filed with the railway commission an application for extension of the order for lowering of the Pacific export grain rate until such time as the whole board deals with the question of the revision of the order.

This is a development in sequence of the division of opinion in the board in reference to the order. It will be recalled that two of the board's chief commission and Commissioner Oliver—who heard the case at Vancouver recently, ordered that the rate on grain exported by the Pacific coast route should be the same as that on grain exported by the other routes. The other three members—Messrs. Macdon, Boyce and Lawrence—adopted a resolution against dealing with the question in advance of the general rate inquiry and later two of them—Messrs. Boyce and Lawrence—gave formal judgment in dissent.

Apert from the doubt which has been created owing to the division in the board the Canadian Pacific railway company claims that the order was not justified by the evidence taken in the enquiry. The application will be the subject of a special meeting of the commission this afternoon.

Cottage Tulips—Macropella, Golden Crown, Picotee, and many other

Darwin Tulips—Barrigan, Clara Bell, Farmhouse Bander, Mrs. McNeil, Franz Hall, Mill, William Pitt and Gretchen.

TWAS TOO SOON.

Pat Hagen, that used to drive a team, came running out of the barn one morning yelling like an Indian.

"Whaddy' think?" he bawled. "McCarthy's haw his self 't a harness box!"

"Shut up!" sez I, "d'it ain't done!"

"Oh, didn't!" sez he, "the 'dirt' was!"

REPENTANCE

King Solomon and King David. In youth led wayward lives; Each had his own affliction.

Besides their numerous wives; But when old age was creeping on, "Whaddy' think?" he bawled. "McCarthy's haw his self 't a harness box!"

"Shut up!" sez I, "d'it ain't done!"

ONTARIO FRUIT

There will be a car of Ontario Fruit distributed in Macleod on or about Sept. 24th. This will consist of Concord Grapes, Damson Plums, Green Gage Plums, Blue Plums and Red Plums. The prices will be the lowest of the season, no doubt, as the car will come direct to Macleod from the Niagara District, thus saving local freight charges.

THE HEADQUARTERS IN MACLEOD FOR FRUITS

LOCAL AND PERSONAL NEWS

J. Hicke, of Macleod, was a Grampian visitor this week.

F. W. Hall, of Edmonton, was a Macleod visitor on Monday of this week.

J. Alexander left on Monday last for Bonner's Ferry, Idaho, where he will reside this winter a guest of Mr. and Mrs. Faulkner.

When is the hand stand going to receive its first coat of paint—if not soon the floor particularly will need to be destroyed by rain and sun.

Charles Thompson, of Grampian, was in Macleod on Monday of this week. He reports a good crop which he expects to go around 25 bushels to the acre.

John Dillingham, accompanied by Mr. and Mrs. H. C. Dillingham, and Mrs. S. Dillingham, left on Sunday last for Innisfail by motor to visit friends at that point.

The Rev. A. W. R. Whitman, the new pastor of St. Andrew's Church, arrived in Macleod on Tuesday.

The Macleod band wishes to state that in spite of the general impression that its treasury is overflowing with coin of the realm, that expenditures for new instruments, music, etc., has left it at least as Mether Hubbard's cupboard. The band is a decided asset to the town and any legitimate enterprise on their part to accumulate money for its improvement as regards instruments, etc., should and probably will receive all satisfaction.

A. Alexander met with a nasty accident a few days ago by nearly slipping off one of his fingers. It was first feared he would lose the member on account of the severity of the wound, but it is now progressing satisfactorily.

Members of Christ Church congregation will meet with warm friends in Macleod with many with regret that Rev. W. J. Merrick is leaving Macleod early in November, to take charge of St. Luke's at Red Deer. Rev. G. McComas, of Red Deer, will take charge of Christ Church, Macleod, the beginning of November.

The following members of the Macleod Golf Club attended the annual Tournament of the Crow's Nest Golf Association held on the Pioneer Creek course on the 6th, 7th and 8th of September.—Rev. W. J. Merrick, Mr. and Mrs. Kennedy, Mr. and Mrs. Mercer, Mr. and Mrs. Martin, Mr. and Mrs. Hurley, Mrs. Hartley won first Prize Ladies' Medal Handicap and, with Mrs. Gearhart of Pincher Creek, as partner, won first prize in the Ladies' Two-Ball Foursome.

The funeral of the late Mrs. Rhonda Maxfield was held on Friday, September 11th, and was largely attended by friends from far and near. Rev. W. H. Irwin spoke of the life of Mrs. Maxfield in a very touching and practical way and how much influence she had wielded for good by her quiet life. Mrs. C. Brewster sang a beautiful solo, a selection by the late Mrs. Maxfield. Judging from the large number of beautiful wreaths she had more friends than she knew. The pallbearers were R. D. McNay, Mayor McDonald, E. F.

Miss A. M. Wilson

Brown, J. L. Fawcett, Dr. Panett, J. A. Struthers.

Ernie Moffatt, of Claresholm, was a business visitor to Macleod this week.

P. Cutler and party visited the Cochrane range this week for a few days' shooting.

Albert Swinerton returned home this week after spending a vacation visiting western cities.

W. J. Reid, of Calgary, formerly of Macleod, was a business visitor in town several days this week.

The local nimbros were out in full force on Tuesday of this week after the ducks and partridges, and some very good bags were brought in. The honors of the first day's number of ducks go to Messrs. C. P. McDonald, J. Grier and G. Pollard. They secured 42 nice birds, with Arthur Grier, J. Riley and J. B. Martin running them a close second with 28.

The C. P. R. associates of E. Pittard, who has been transferred to Edmonton, presented him with a set of pipes in case and tobacco pouch, on Friday evening last. Mr. and Mrs. Pittard and family left to take up their residence in the northern city last Sunday, and their many friends and acquaintances, although pleased with the deserved promotion given Mr. Pittard, were sorry to see him leave Macleod.

COMMENCEMENT EXERCISES AT MACLEOD SCHOOL

Commencement exercises in the public school was called on Friday, September 11 and was responded to personally by the scholars of all the grades in the singing and motion exercises of the week. Chairman Day presided during the ceremony.

Mr. McDonald also welcomed them by telling the children how happy all parents were to be there, and then take so much interest in their lessons and receiving their prizes.

"We are happy to have you provide the education for you and all we ask of you children is to apply yourselves while at school and the teachers will do their part to make and let the children know that the best in the Province of Alberta."

In the distribution of prizes the following were the winners for the year ending June 30, 1925:

Grade 1—Verna Greenwood; 2, Isabel Moreau; 3, Marjory Pharo, Grade 2—Beryl Underwood; 2, Dorothy Willard; 3, Esther Oliver, Grade 3—Laural Armstrong; 2, Dorothy Willard; 3, Esther Oliver, Grade 4—Jack McDonald; 2, Homer Moore; 3, David Cooney, Grade 5—Holly Young; 2, Gwen Hilliard; 3, Dan Pittard, Grade 6—Dorothy Young; 2, Gladys Cooney; 3, Allen Armstrong, Grade 7—Allen Gordon; 2, Millicent Armour; 3, Jack Fawcett. This is the fourth year in succession that Allen Gordon has stood first in his class.

Special prizes for composition in grade 1—Wilhelmina Lantinga; grade 2, most improvement in writing during the year, Marjorie Pharo; grade 3, most improvement in writing during the year, Ruby Taylor; grade 4, Marjorie Pharo; grade 5, Jack McDonald, equal; grade 6, perfect attendance, Irene Tweed, Ralph Grier.

After the distribution of prizes the children returned to the school and were treated to ice cream, which every child, old and young enjoyed.

The singing of the National Anthem brought the afternoon entertainment to a happy ending.

Mrs. J. B. Sutherland addressed the children on behalf of the Women's Institute.

She spoke of the pride as taken by the school children, seen in the prizes that the Women's Institute were distributing for the best back yards and the window boxes. This is the first year the Women's Institute have taken up this work of education and better schools. The response has been so great that these women will enlarge on their work for another year, they will also give greater prizes, which will be held the children early in the new year. The prize winners were:

Tidy back yard—1, Leslie Pearson; 2, May McGregor; 3, Frank Brooks. This was for age 9 to 12. Age 12 to 16—1, Alice Angell; 2, Ruth Porter.

Window boxes—Ages 6 to 9—1, Gordon Winter; 2, Katherine Oliver; 3, Marjorie Pharo; 4, Roy Bato. Age 10 to 12—1, Ruth Porter; 2, Frank Bell; 3, Mary McLeod; 4, Winnie Ringland; 5, Connie Reid; 6, Alta Telf; 7, Gladys Gilroy; 8, Elsie Thornton; 9, Gordon Johnson. Age 12 to 16—1, Tom Bell; 2, Jean Ringland; 3, Eric Crowson.

FLORAL TRIBUTE AT OBITUARY OF MRS. DENAIRE

In reporting the funeral of Mrs. Denaire in The Times last week, the list of floral tributes was inadvertently omitted, and which were as follows:

Mrs. Denaire and Mrs. Venn, heartily sympathize with Mrs. Smith and family, wreath; Mr. and Mrs. Grier, spray; Ada and Lillian Venn, wreath; Mr. and Mrs. R. Baker, spray; Mr. and Mrs. W. Shield, spray; Beach & Co., staff, spray; Mr. and Mrs. M. Donahue, spray; Mr. and Mrs. F. S. Clarke, spray; Mrs. W. Parker and family, wreath; Mrs. Lind, wreath; the family, cross and spray.

NEW GRAIN RATES ON WEDNESDAY.

Winnipeg, Sept. 14.—In accordance with the recent order of the Board of Railway Commissioners reduced tariffs on westbound export grain will become effective to-morrow night, it was officially learned here to-day.

Application for suspension of the

order was made last week by the C. P. R. on the ground that the decision was reached by a minority of the board and that the order was not justified by the evidence taken at the enquiry. The application will be given a public hearing on September 22nd.

Express—Sat. Only.

GENERAL MERCHANTS, GROCERIES, FRUITS AND VEGETABLES—BOOTS, SHOES AND CLOTHING

The general carriage of the body or demeanor of a well dressed woman, is freely discussed among her sex. The police and general department at home, in the theatre or church, is more or less favorably commented upon. The aim and ambition of every woman is to have a pretty figure. The first requirement is the Watson make of Underwear now being so freely advertised by us. It is famed for its Clinging, Elastic Appearance. Soft as silk and as comfortable. Silk, wool and cotton you ask for. The next requirement is a pair of Hosiery. With a pair of nice fitting shoes. It does not matter about the dress, a yard and half should be amply sufficient. The main thing is the figure, in fact, the less you wear will be an added feature of attraction. These Silk, Wool and Cotton Combinations are going fast. At the same advertised price, one dollar and fifty cents—\$1.50.
